

**Personal information:**

**Name** Selvia Maged Adly Habeeb  
**Place of birth** Fayoum  
**Nationality** Egyptian  
**Language** Arabic – English  
**General specialization** Pharmacy and pharmaceutical sciences  
**Department** Analytical Chemistry  
**E-mail** [selvia.adly@pharm.bsu.edu.eg](mailto:selvia.adly@pharm.bsu.edu.eg)

**Educational qualification:**

<b>May 2012</b>	Bachelor of Pharmaceutical sciences, faculty of pharmacy, Beni Suef university
-----------------	--

**Positions Held:**

<b>April 2013</b>	Demonstrator, Department of analytical chemistry, Faculty of pharmacy, Beni-Suef university, Egypt
-------------------	--

**Training sessions and workshops that have been obtained:**

Name of training session	From	year
ICDL	Beni Suef University	2011
Skills development workshops for University faculty members	Beni Suef University	2018

**Main Research:**

Analytical study of pharmaceutical formulations.

**Publications:**

1- "Different spectrophotometric and TLC-densitometric methods for determination of olmesartan medoxomil, hydrochlorothiazide and their degradation products" paper was published in European Journal of Chemistry: volume 9(4), pages (400-407), 2018.

2- "Development and validation of different spectrophotometric and high performance thin layer chromatographic methods for the determination of fosinopril sodium, hydrochlorothiazide, and chlorothiazide as hydrochlorothiazide impurity" paper was published in Journal of Planar Chromatography - Modern TLC, volume 32(5), pages (411-420), 2019.
